

Amgen 2027 Environmental Sustainability Goals

 **Achieve Carbon Neutrality**

 **Reduce water consumed by 40%***

 **Reduce waste by 75%***

* compared to the 2019 baseline

Amgen Breda

Adhere to Dutch and European regulations

Contribute to Amgen 2027 ES Goals

'Go Beyond' projects in selected areas

Engagement of staff and community

Amgen Breda's Environmental Sustainability Successes

 **Energy label A++++ for security building,** and energy label C for all our offices

 **Increased electrical vehicles in fleet,** chargers on our parking and we have a staff (electrical) bike plan

 **Segregated waste** More than 65% of our waste stream is already recyclable at this moment

 **Intelligent LED technology in lighting** as our standard

 **Reusable bottles and cups** for all our employees

 **Product packaging** source certified (FSC/PEFC) paper and carton components, PVC-free packaging, electronic leaflet (pilot)

 **Green energy usage only, solar and wind** and we have our own solarpanels

 **Community involvement,** donation of refurbished toys, clean up activities in our community

 **Smart domestic water usage** and no pollution of ground water as our products are biologicals
